

Lab Conclusion-write in a paragraph. The more detailed the more points you will earn. (50 points)

*Estimate # bp in ea. DNA fragment*

What is a genetically modified organism?

What crop was genetically modified, how do you know? Explain the technique of gel electrophoresis. How does it work? (think: how do we get fragments of DNA, DNA's charge, movement of DNA) What else can we gel electrophoresis for? (other than GMO detection)
